**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

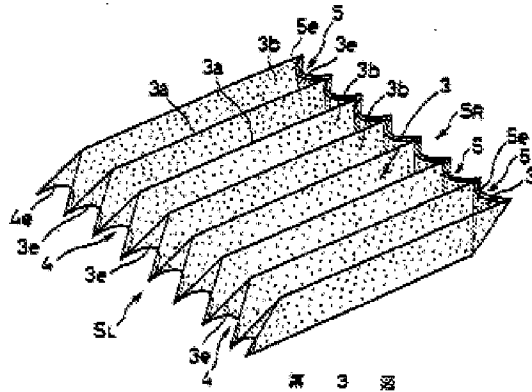

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 19-27, drawn to a corrugated filter sheet of filter media with end closure sealed to fluid flow therethrough.

Group II, claims 28-36, drawn to process of manufacturing filter media by deforming a portion to define a foldable tip.

The inventions listed as Groups I and II do not relate to a single inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features. Specifically, JP 01-171615, KADOYA (hereinafter KADOYA) discloses a similar special technical feature. The special feature disclosed a fluted filter media construction (Fig. 3) comprising: a corrugated sheet of filter media comprising a curved wave pattern of corrugations (3); a set of the corrugations defining individual flutes each having an end closure (4, 5) defined by a regular fold arrangement in a corresponding corrugation including four folds. KADOYA also discloses if the folded ends are closed with filing sealant that fluid flow would not be possible (Pg. 7, Para. 3, see Translation provided by Applicant from Ralph McElroy Translation Company).

2. A telephone call was made to Ms. Julie Daulton on 3/12/2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
